Are there any additional features or sections you would like to see on the website?
Club information to be provided in long form on the website without separate pdfs to download. *I think the site should be designed around the two primary use cases as I understand them: prospective student parents, and current parents. Current parents really only care about term dates and clubs in my opinion and that should be front and centre. I would suggest a simple self segmentation option on the front page for parents for prospective students and the parent section be designed for exactly what current parents needs are. All of the other stuff is irrelevant in my mind as a current parent.*
The new website is fabulous. The layout and structure on both a laptop screen and mobile phone is displayed clearly and easily to navigate & read.
The curriculum information is much more intuitive to find and very comprehensive.
The School News app provides a great support for the school calendar so you exactly what is on when.

What could be improved about the website?
Quick link to often checked information such as term dates or events in school.
Continue to use School News App to help parents as it is a great summary of school events, dates, newsletters, etc.
