Overall, I am happy with my child's experience this year at St Luke's

99%

## This year we have been pleased with:

*The quality of teaching and care.*

*We have been really pleased with the progress my child has made academically this year.*

*The sport - Mrs Allen has been great for promoting sport within the school especially girls sport.*

*All the friendly teachers and kindly staff, the wonderful and joyful program during the year.*

*Great communication between school and parents.*

*I enjoy the weekly newsletter, it was great to know what the children's been doing at school.*

*I'm pleased with the school curriculum, my daughter loved the art, music and science lessons particularly*

*School trips have been fun, well organised.*

*Engagement from Lin and Mr Bates on our child - this has been outstanding and very supportive. Love the variety that is taught and experienced at school. Great experience all round.*

*The school installed solar panels, which is very positive for the kids to have an idea about the renewable energy, clean energy and the climate changes etc.*

*How welcoming the school community is and how settled our child has been at St Luke's. It's a testament to all the staff.*

*Building of self Confidence through a range of Experiences - Residential week, visits and trips, choir, sporting fixtures.*

*Homework assignments that are stimulating and interesting.*

*great communication between school and parents*

*The care all staff show to the children and child centred approach is wonderful. Indeed I bumped into a former pupil the other day who was singing staff praises showing that it is embedded within the school ethos which is just lovely and reassuring.*

*The sports provision. Mrs Allan has made such a positive impact in providing so many different opportunities for all the children. It has been so lovely to see so many children, in all years, being able to participate in both competitive and non competitive events. This has given so many a chance to try something they might not usually get involved in. I know how much time and effort goes into this (on top of everything else) so a huge thank you to all the teachers involved.*

*Progress in reading, writing and numeracy.*

*The really fantastic range of subjects covered. I'm constantly surprised and amazed by how exciting and varied the lessons are - from workshops to immersive days and the brilliant science lessons where kids can get hands-on. Very impressed. Thank you!*

*Progression that my child has made in school. This was only possible thanks to support from various members of staff and close communication between school and home. Also very grateful for school's inclusion culture for children with SEN.*

*Our child has had the opportunity to go on some brilliant school trips.*

*My child has had a fabulous year at St Luke's and has been really happy in school. He has embraced the year with such enthusiasm, enjoyed the topics he has covered and we are thrilled with the progress he has made. He has really enjoyed the wider opportunities such as lunch club and tag rugby.*

*My child has really enjoyed the provision of swimming classes each week in the latter half of the year.*

*The time and effort which goes into school events like the Christmas shows and class assemblies. The open communication from all staff. The invaluable help from Lisa and Hannah in the office.*

*My child has built confidence and became more independent.*

*My child has started fully enjoying reading books. She just can't get enough of it.*

*A lot of activities. Well done nursery for that!*

*The amount of tailored support my child has received.*

*How independent he is getting with all the work.*

*The care and commitment of the teaching staff.*

*Parents well informed about what children learnt through Tapestry photos and communications, the course design is great.*

*All the efforts the school is putting into organising diverse events, learning experiences, field trips and etc.*

*Speed of response to any concerns raised.*

*We have been really happy with St Luke's. Our child enjoys going to school, and we have felt very well supported and cared for as a family. We like how everybody (including head teacher) are very approachable always feel available.*

*Overall care and patience shown with my own and all other children in the school. The school runs incredibly efficiently which results in reliable and consistent care for the children.*

*Communication between school and parent.*

*Great extra curricular activities and positive increase in sports activities for all.*

*The care and attention with support from the school.*

*The variety of extracurricular activities and events offered.*

*My child has been very happy this year and enjoys coming to school which is testament to the community and environment that is provided by the school.*

*My child has had good relationships with children in other years.*

*Our son's learning and his attitude to learning. The feedback provided is always helpful.*

*The caring, fun and creative environment set for an enjoyable and inspiring first year of school.*

*My child's growing interest in the wider world and her love of reading.*

## We would like to make the following suggestions:

*I wondered if there is any information given about the transition into year 1 / new teachers?*

*It would be great to understand how children progress with phonics, how they proceed to the next phase with their reading books.*

*To continue supporting the internal and external variety of clubs available to the students.*

*Putting funds towards air conditioning to the main hall where most activities are held.*

*Sometimes communications from the school are confusing. We don't feel we have gotten to know the staff well yet as there is so little time to meet them.*

*If possible, arrange parents to have classroom visit so as to observe how their children learn / behave in classes.*

*Both my children get super stressed about changing for PE it would be so much easier if they simply wore their PE kit on the days they have sport. It would be especially helpful at this time of year when it's hot and uncomfortable to be changing.*

*Consider using coach transport again for more local trips instead of public transport - appreciate the latter is generally free, but think managing the logistics and uncertainty on timings make it worthwhile.*

*Parent/ teacher meeting in final term to discuss school report and end of year/recommendations for year 1 and summer holiday work.*

*We honestly can't think of any way that the primary school experience could have been better for our three children (except maybe no COVID....) Thank you to all of you for everything you have done over the last 11 years to help and support them. We will miss St Luke's so much.*

## Comment Key Words:

extracurricular  
events friendly encouragement  
engaged support  
enjoyment  
care motivated
