We Have Missed You **By The Nursery Team**

Nursery you are
Lively, lovable,
Leaping and laughing.

Nursery we have missed you
Running and rushing,
Racing and rolling,
Rejoicing,

Sitting and singing,
Speaking and signing,

Creating and climbing,
Calmly contemplating.

Nursery we are wondering when
We will be together again.

We are waiting to welcome you.
Until then,

Read and play,
Keep busy every day.

Nursery Acrostic **By Miss Burgess**

N-ursery things have been strange for some time,
U-nderstand how much we've missed seeing you laugh, learn and grow,
R-emember to keep smiling, singing and sharing,
S-oon we hope to see you all again,
E-xcited to hear about all you've been up to,
R-eady for friends, games and fun,
Y-ou're all brilliant, bright and beautiful stars.

A yellow highlighter, several yellow paper clips, a black paper clip, a yellow compass, and a yellow sticky note are scattered on a yellow background. A white grid pattern is visible in the top left corner.

Missing You By Year 1 team

What did you do in the lockdown Class,
What did you do in the Spring?
Did you learn to cook,
Did you read a book,
Did you learn maths on a screen?
Did you draw a world map,
Every Thursday NHS clap,
Did you even write to the Queen?
What did you do in the lockdown Class?

What did you do in the lockdown Class,
What did you do in the Spring?
Did you write a newsletter,
Ride your bike and get better,
Did you make a house from a box?
Did you create a spacecraft,
Dress up to look daft,
Did you breakfast on cake and chocs?
What did you do in the lockdown Class?

Yes, in the lockdown we did **all this**,
But it was our friends in Year1 that we missed!

We are looking forward to seeing you again soon!
From all your teachers x

Year 2 Willow team

Rainbows in windows and chalked on pavements,

A lesson at home and PE with Joe.

Internet chatting with friends and family,

NHS heroes, we're clapping you all.

Birds singing loudly; no planes in the sky,

Oh Richmond Park so peaceful and quiet.

Walk, run and cycle, the sun is shining,

See you all soon; we look forward to that day.

Hello Oak class we hope you are well
Having lots of fun and learning to spell
We miss you coming through the door
And wish that we could see you more

The school is empty without a sound
Now that you are not around
The classroom is so quiet too
No noisy chatting - your favourite thing to do

Hopefully you're finding home learning fun
We all love seeing what you have done
Reading, writing and drawing too
Maths, PE and science to name a few

Maybe you have been watching birds
Or sitting at the table reading words
We hope you've had time to sing some songs
And the time we've spent apart doesn't feel too long

Remember Oak class to keep your big smiles
As in the end this is just one of life's trials
So keep having fun and learning new things
It won't be long now until you can all spread your wings

We look forward to the days when the classroom spaces
Are once again filled with your happy, smiley faces
Hopefully it's not too long until your return
So we can resume having fun and continue learn

Have lots of fun
Either indoors or in the sun
We all miss you lots
And hope you're not tying your parents up in knots

A Few Verbs For Year 3

Waiting, Smiling, Learning, Sharing,

We wait to find out when we will return
We wait to video call our friends
We wait to play on the playgrounds
We wait to hug our grandparents
But while we wait we always remember to smile.

We smile when we feel the warmth of the sunshine
We smile as we hear the song of the birds
We smile as we cycle and stroll through Richmond Park
We smile when we look across at our neighbours clapping together with us
And we smile because we know that together we are still learning.

We learn about kindness as we leave surprises on people's doorsteps
We learn to slow down and enjoy the time spent at home
We learn to bake new things with our family
We learn to do Spiderman lunges and mountain climbers with Joe
We learn to research the Romans by ourselves at home
And as we learn, we are excited to share it with others.

We share our creative ideas and our memories of when we learned together
We share messages of nostalgia and ideas for when 'this' is over
We share poems to reflect on these strange times,
We share our worries and our fears so that we don't carry them alone,
We share our hopes to be back in our classroom together soon.

Miss MacPherson

Year 4FW team

It's been a while since those corridors heard the stampeding of feet,
With murmuring of cluttered voices beneath the morning greet,

With the lower playground alive with commotion,
Just like unorganised fish shoaling in the ocean,

Although times are different and strange you could say,
I'm glad I'm not the only one looking forward to that day,

When the flood gates open up at 8:30 am alongside the morning sun,
We welcome a tide of brilliant colours ready for fun,

It's not to long now, it's almost a dream,
those corridors and classrooms full of the St Luke's team,

With an orchestra of voices both quiet and loud
All dressed in navy blue making St Luke very proud,

And more importantly and selfishly too,
Me Mr Francois Williams or Mr FW,

I can't wait to score a hat-trick for years four and three,
against opposition measured at around 97.3(cm).

Year 4D team

Lets take it back to the start in Wuhan,
For what came next none of us could plan
First people thought it was just a flu,
looking back on it now nobody had a clue
A virus broke out which covered the land,
it spread rapidly from hand to hand
Before we knew, it had spread far and wide,
This is why it is important that we must stay inside.

If you feel frightened please don't despair,
You're too strong a person to keep your mind there
Try not to think of all the things you miss,
instead focus on what will bring you bliss
Global warming and greenhouse gases,
Have been reduced by lockdown of the masses
Look out the window at what we took for granted before,
you will appreciate it next time you walk out of the door.

Make sure to smile and not wear a frown,
There are plenty of things you can do in lockdown
This is a great time to improve yourself,
Why not start with your fitness and health?
Pick up the books you ignored before,
They are full of new worlds you can explore.
If all else fails imagine big things in your mind,
Who knows what wonders you may find?

Help out others as much as you can,
We are all in this together as one human clan
Make sure to clap for our heroes on Thursday night,
They have been a beautiful ray of light
They risk their lives to keep us safe,
All they ask is to stay strong and have faith
All of this will be over soon,
And we can go back to shining like the moon.

Miss Dowd

Lockdown 2020

By Year 5 Team

As you left school on that day that seems so long ago,
When we would see you all again we didn't quite know,
With mixed emotions and so much left unfinished,
We hoped that your spirits would not be diminished.

Home learning began and Boris said "stay inside",
We knew we weren't in for an easy ride,
You were missing your friends and (maybe) your teachers too,
Your parents worked hard to teach and care for you.

But a few weeks in and everything seemed not so bad,
You discovered interests you never knew you had,
More time to spend with family and do things you've always wanted to,
Gardening, painting and exercising to name just a few.

As we stayed inside our homes the world started to heal,
And suddenly lockdown didn't seem like such an ordeal,
There's clear water in Venice and blue skies over Delhi,
Wild animals are roaming free and big cities less smelly.

We will eventually go back to school and normality will return,
But we will take from this time the lessons we have learned,
With so much more appreciation and love of life,
And together we will have beaten this lockdown strife.

Year 6 teacher – the one Mrs Lowe
Who loves singing and playing piano
Is missing the school
Her class most of all
And it's something she'd like them to know

It's been nine weeks since they've been apart
She's been proud of them right from the start
Such courage conveyed
Superb work displayed
Be it English, or Science, or Art

She is sure in that time they'll have grown
In more ways than may ever be known
New skills they'll have learnt
Success can be earned
When school values are thought of and shown

For Mrs Lowe, her days have flown by
With home-schooling and new things to try
There's daily Joe Wicks
Some dens built with sticks
Grateful to see the sun in the sky

So keep smiling, stay strong and stand tall
We will celebrate your time at school
Memories we'll share
Of your seven years there
Til then, a virtual hug to you all.

Don't forget to wash your hands!
Inside your sandwich is Cheese and ham
No chocolate, No sweets
Eating healthy is our way at St.Luke's
Remember always to finish your food
Don't throw it away
Let's now wash our hands
We can play outside
Distancing is what we all need to do
I spy is a game we play
Everyone will be okay
Sun is shining
We have had a great day

Mandy, Sue, Sara, Hazel, Debbie & Bron

Human Kindness

Be kind and tender to human beings,
And do not call them names,
As 'Grumpy guts' or 'Meany pants,'
Or likewise 'Woolly brains,'
Or 'Toothy grin' or 'Friend gone wrong,'
Or 'Bumpy, bandy knees.'
A human being is sensitive
To phrases such as these.
So, give to others what you would like,
A treatment kind and fair,
And you will find great happiness
In a world that's full of care.

Mrs Thomson (apologies to Hilaire Belloc: The Frog)

A top-down photograph of various gardening tools scattered on a bed of dark, rich soil. In the upper right, a green plastic handle of a tool lies on the ground. Below it, a wooden-handled orange pitchfork is partially visible. In the center, an orange plastic shovel is filled with dark soil. To the right of the shovel, a small green plastic handle is visible. In the lower right, a terracotta pot is overturned. At the bottom, a wooden handle with a hole at one end and an orange shaft is lying on the soil. The background is a dense layer of dark brown soil with some dried leaves and twigs.

G-reen fruits ripen in the sunshine
A-pple blossom floats in the air
R-acking the soil to plant the seeds
D-igging and planting with ease
E-verything a garden brings?
N-eeding water come rain or shine!
I-nsects too Bees
N-otice the change to the birds and trees
G-rowing and flowering in the garden.

By Mrs Hennings

Lockdown Limerick

When St Luke's had to close due to
a virus

The children yelled, "Hey, teachers!
Admire us,

We are doing our SPAG,

Even though it's a drag.

An education won't be denied us!"

Mrs McG

A top-down view of various school supplies scattered on a light-colored wooden desk. The items include several pens and pencils in various colors (purple, blue, yellow, red, green), a ruler, a pencil sharpener, paper clips, and a watercolor palette. The supplies are arranged in a somewhat chaotic but organized manner, typical of a student's desk.

Missing You

Many weeks have passed since I last saw your lovely, smiling faces,

I pray everyone of you is still smiling, not too troubled by Covid-19 cases,

Some of you I'm sure will have embraced this time at home,

Some of you have found it tough feeling worried & alone,

I wish I could know how you feel, what thoughts run through your mind,

Not seeing you all has been so hard, this pandemic is cruel & unkind,

Globally children have stayed home from school, home learning without their teachers or buddies,

You have all been amazing through these difficult times, please don't stress about your studies,

Ordinary days may seem so far away but St Luke's will be together again soon I'm sure,

Until that day comes please stay safe and if you miss us, remember we miss you more.

From Mrs Bintcliffe
