

Dear Parents

Please find below a summary of the parent consultation feedback regarding the proposed extension of the LookOut After School Club hours to 6:00 pm. There were 46 parental responses in total to the consultation.

**1. Mixed Interest in Extended Hours:**

- Some parents expressed that the extension to 6:00 pm would be helpful, particularly those with later work commitments.
- However, several parents indicated they do not need this change, mentioning flexible work arrangements or current timing sufficiency.

**2. Support for the Extension:**

- Only a minority of parents explicitly supported the extension with a cost increase.
- Most respondents who stated they did not need the extra time also did not favour a cost increase.
- Some parents completed the feedback form in support of others who might need a later finish, although they themselves did not require it.

**3. Additional Comments:**

- Very few additional comments were provided. Those who did respond offered positive feedback if they supported the change or neutral feedback if they did not.
- Additionally, some parents indicated that the additional 10 minutes would not allow them enough time to catch a later train and then pick up their child by 6:00 pm, thus limiting the benefit of an extended end time.

Considering all these perspectives, we've decided not to implement any changes to the current 5:50 pm finish time at this stage.
