KS1 (Y1&2) Lunch Time Chess Club

Friday 12:20pm – 13:00pm

Beginners and Players Welcome

Why play chess?

Chess is fun, it is a lifetime hobby, but it is also so much more. Through chess, we learn how to analyse a situation by focusing on important factors and by eliminating distractions. *Players can become better problem solvers in their daily lives.*

Chess is a game that involves strategy, risk management, creative thinking, and the ability to manage your emotions.

- Chess is about ***making decisions, analysing the problems, abstract reasoning.***
- Chess is a fantastic tool for ***developing character*** at a young age such as *resilience, patience, sportsmanship*. Understand that decisions have consequences, “**growth mind-set**” – learns from setbacks.
- Chess encourages ***creative thinking, pattern recognition.***
- Chess also brings together all ages, nationalities, backgrounds, and gender.

In the club children will have fun learning with children of similar age. Beginners learn from scratch how to play and those who can play enhance the skills they already have as we learn various tactics, opening and endgames in club. ***Over the term members will compete in a club tournament with prizes of trophies, medals, and badges.*** *To improve your child's chess skills, I would recommend they try to play three games of chess a week.*

Judo is a modern Olympic sport originating in Japan, which uses techniques and quick reflexes to get a partner off balance and take them down to the mat. It combines the ancient culture of the orient with today's concept of sport, fair play, sense of achievement and the fun of taking part.

Classes follow the British Judo Association Syllabus. Judo helps physical fitness, co-ordination and discipline. It also develops confidence and encourages interaction with others.

Judo suits are available to purchase but not compulsory at any stage. We recommend beginning lessons wearing PE kit or similar loose clothing.
